Looking for technology training that truly impacts the students?

It's never been easier to train on new technology and encourage classroom integration. The Atomic Learning suite of products is designed to provide a comprehensive framework to bring technology and curriculum together.

Educators can streamline technology integration with Atomic Learning's 120+ classroom-ready projects utilizing Comic Life, Excel and more. And, the workshops on topics like social media, podcasting and blogging help school faculty and staff members learn essential communication skills.

Training Resources:

SMART Board
Promethean
Internet Safety: Be Aware!
iPad
Microsoft Office
Adobe Creative Suite
Fraction Frenzy
Web 2.0 Resources
Google Apps
Keeping Kids Safe Online
Moodle
Creating Engaging Presentations
iPod touch
Skype
Facebook and YouTube for Educators
…and many more
